Subject: Parking support

Hi [REDACTED]

Thanks so much for writing the letter of support, we really appreciate it. Is something like this okay?

As residents of [REDACTED] Common Hill we are in full support of an application for more residents spaces and the option for a season ticket to park on the common car park. It is frequently very difficult finding somewhere to park as there are insufficient spaces for the number of households and during busy periods we often have to park far away on a non restricted road which with two very young children is very challenging.

Thank you

[REDACTED]
