P&T 005-24	Public speaking time Two residents of Seven Devil's Lane attended the meeting and spoke regarding agenda item 6O, planning application UTT/23/3101/OP. The residents raised the following concerns with the application: a) The proposal has inadequate parking provision, acknowledging four additional dwellings could see eight additional cars using the lane. In addition, four dwellings would cause an increase in delivery vehicles impacting the traffic and road safety. b) The access lane is very narrow and well used by pedestrians, to add additional vehicular traffic would be a major safety concern. c) The proposal would severely impact the street scene. d) The impact on the climate, noting bats are seen at the area. Committee thanked the residents for their comments.

<p>P&T 006-24</p>	<p>UTT/23/3101/OP Outline application with all matters reserved except access, layout and scale, for for the demolition of part of the existing dwelling and the erection of 4 no. dwellings including creating a new vehicular access onto Seven Devils Lane. Seven Dials Seven Devils Lane Saffron Walden Essex CB11 4BB</p> <p>Committee raised several concerns with the application, noting: The proposals are overbearing and demonstrate overdevelopment; the increase in homes would significantly increase traffic movement, which is concerning as the primary access is via the narrow single file lane.</p> <p>Committee Resolved: To object to the application on the grounds of overdevelopment and the increase in traffic. Breaching ULP GEN2 as the design is not compatible with its surroundings and GEN1 because the access road is not capable of safely carrying the additional vehicular traffic. Committee also requested the UDC ward members call the application in to UDC planning committee for determination.</p>
<p>P&T 007-24</p>	<p>The two members of public left the meeting and were thanked again for attending.</p>

Additionally, committee supported the comments raised by residents, as detailed within the provided Statement of Community Involvement (SCI).</p> <p>Committee resolved, to respond to the application with the following concerns:</p> <ol style="list-style-type: none"> i. The proposal would severally impact flooding along Thaxted Road and particularly on the existing Tiptofts Lane development therefore measures must be in place to comply with GEN3 and SW3(14). ii. The site entry junction and primary access road must be able to safely accommodate the additional traffic to comply with GEN1. The proposal does not provide any play equipment or designated play space and this must be provided, as a requirement of SW17.

	<p>iv. Additionally, local services such as off-site community facilities and recreation, must be provided to support the future residents.
