Hi

The published TRO fee is £2,742.65 per order – so changing waiting restrictions and access would be 2 orders.

Of course the designs would need to be done by the designers first.....once we have a clear idea of what everyone wants so that will need paying for. I would suggest 10-12 weeks from finalised TRO instructions (post design) to end of objection period, once we have the objections in we can work out what to do next.

With thanks

Hi both

A couple of process and funding questions. I'm meeting with the Town Council tomorrow and want to make sure I have all the details.

[REDACTED] can you confirm whether there is LHP funding allocated to the project and if the scheme were to be taken forward would this be available to use? If so, how much is available?

[REDACTED] on the TRO process. It's a bit of time since I've been involved in one and never in Essex. What's the process, timescales and costings please?

I'm exploring drawing down S106 funding and have the potential to allocate £15k+ from UDC funds towards the project but just want to be clear on all funding available and process.

I'm hoping that following the meeting with the TC tomorrow, we can get started on the process.

Many thanks
